Description

Make a more informed decision about this business with CreditorWatch RiskScore and Payment Predictor. RiskScore is a credit rating (between A1-F) that assesses an entity's likelihood of default in the next 12 months. Payment Predictor provides you with an entity's real-time payment data compared to the industry average to help you identify slow-paying debtors. Combined, these insights allow you to determine the trading risks associated with this business.

What's Included

- RiskScore
- Credit rating
- 12 month historical score
- Payment Predictor
- Industry payment average (where available)
- Details of trade experiences

Note: Payment data not available due to insufficient data to provide a prediction

* Please note: The information above is based on "on-file" ASIC data and may not be complete. To confirm current and previous directorships held by an individual please purchase a director extract for a comprehensive report. It is possible that directors with similar names, but with no association to the company, could appear in the cross-directorship section.

Company Office Holders

Every registered company has directors and officeholders. This section will identify those individuals and will include their roles, appointment dates, addresses, dates of birth, and birth details. For a more comprehensive understanding of an individual, a Personal Name (Director) Search can be performed (at an additional cost), which lists all their directorships and shareholdings.
